ASEAI 2025
African Winter School
Software Engineering & Artificial Intelligence

1st African Winter School on Software Engineering & AI

ASEAI 2025

Novation City, Sousse Tunisia (hybrid)

24-26 November 2025

About the event

The Winter School brings world-class scholars from across the globe to Africa to share knowledge, inspire creativity, and build lasting collaborations. By serving as a bridge between Africa and other continents, this winter school fosters cross-cultural scientific exchange and global cooperation in Software Engineering and AI. Through interactive sessions, mentoring, and cutting-edge talks, the mission of the school is to empower the next generation of students, researchers, and professionals with hands-on knowledge and deep insights into the future of Software Engineering in the era of AI.

Topics

The winter school is built around four main pillars:

1. Research talks on emerging topics in SE and AI
2. Research Student mentoring
3. New faculty mentoring
4. AI certifications (with NVIDIA)
